University of Edinburgh Register of Interests

General Council Assessor

Jock Millican

1. Directorships, including non-executive directorships in public or private companies likely, or possibly seeking, to do business with the University.

- Sunamp Ltd – I am a director of Sunamp Ltd an early stage company that makes heat batteries. Part of the technology was developed by Professor Colin Pullman of the Chemistry School. The company pay royalties to the University for each unit produced. In addition, Old College Capital have invested in the company alongside the Business Angel Group, Equity Gap, that I manage.
- There are 5 other companies, Shotscope, MiiAlgae, Mocean Energy, Amicus and Neurocentrx that Old College Capital and Equity Gap have invested in. I am not a director of these companies.

2. Employment by any public or private companies, businesses or consultancies likely, or possibly seeking, to do business with the University.

- See answer one above

3. Owner or part-owner of, or significant shareholdings in, any public or private companies, businesses or consultancies likely, or possibly seeking, to do business with the University.

- The companies detailed in question 1 all have significant investments from Equity Gap members and Equity Gap under the investment agreement has power of veto and consent over some the decisions that the company can make. This is in place to protect our investors and help the founders understand the rules under which a company must operate. I would add that my personal shareholdings are insignificant.
